

# 1<sup>st</sup> Workshop on Regenerative Rehabilitation

in Kyoto

Co-sponsor: APTSA-Japan

Date

Sunday, March 29<sup>th</sup>, 2015

9:00~12:00

Venue

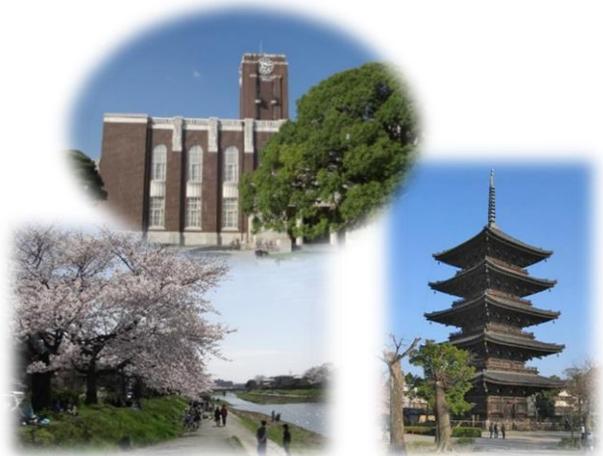

Kyoto University  
Sugiura Hall 2F

53 Shogoin Kawahara-cho, Sakyo-ku, Kyoto,  
606-8507, Japan  
URL: <http://www.med.Kyoto-u.ac.jp/access/>

Summary

Recently, technics of regenerative medicine are rapidly developing, and the role of rehabilitation on the regenerative medicine (Regenerative Rehabilitation) is also strongly increasing. In order to carry out the regenerative rehabilitation safely and effectively, and provide evidence, we must verify the mechanisms and the procedures of the regenerative rehabilitation by both fundamental and clinical researches. In this workshop, we'll invite Dr. Ambrosio, playing an important role in regenerative rehabilitation in the U.S. She will give us a talk as well as domestic up-and-coming researchers. In addition, we'll discuss future prospects of the regenerative rehabilitation after the talks. Hope a lot of therapists and scientists interest and attendance.

For  
Free

Speakers

Fabrisia Ambrosio, PT, Ph.D

University of Pittsburgh

Takeshi Imura, PT, Ph.D

Araki Neurosurgical hospital

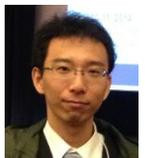

Nana Takenaka, PT, Ph.D

Center for iPS Cell Research and Application (CiRA)

Shoki Yamaguchi, PT

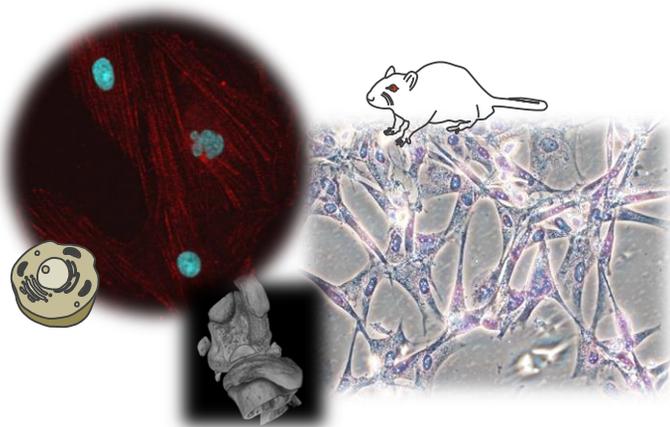

Kyoto University

Organizer

Tomoki Aoyama, M.D., Ph.D

Kyoto University

# 1<sup>st</sup> Workshop on Regenerative Rehabilitation in Kyoto

March 29<sup>th</sup> (Sun), 2015, Kyoto University Sugiura hall

9:00–9:05 Opening Remarks

**Tomoki Aoyama**

(Associate Professor, Human Health Sciences, Kyoto University)

9:05–9:40 Lecture 1

**Fabrisia Ambrosio**

(Assistant Professor, Department of Physical Medicine and Rehabilitation &  
Director, Cellular Rehabilitation Laboratory. University of Pittsburgh)

Title: Regenerative rehabilitation and its forefront researches

9:40–10:05 Lecture 2

**Nana Takenaka** (Center for iPS Cell Research and Application[CiRA])

Title: The present situation of iPS cell researches and a perspective on  
the relation with rehabilitation

10:05–10:35 Coffee Break

&

One slide presentation

10:35–11:00 Lecture 3

**Takeshi Imura** (Araki Neurosurgical Hospital)

Title: Rehabilitation after cell therapy in brain injury

11:00–11:25 Lecture 4

**Shoki Yamaguchi** (Human Health Sciences, Kyoto University)

Title: Treadmill exercise following cell transplantation enhances cartilage  
regeneration in experimental osteochondral defect model

11:25–11:55 Discussion

11:55–12:00 Closing Remarks
